#### 4. Secretariat's Discussion on Membership Issues (by Masako)

- The board approved expansion of the admission criteria currently used in the Application for Admissions.
- The board confirmed its position on the issues of membership composition and development.
- Chinese applications: It was decided that we will send potential Chinese applicants a brief questionnaire asking the extent to which they meet our admission criteria. The secretariat will undertake this task.
- Decision on the creation of an “associate member” category for those organizations which cannot name themselves “ILC xxx” or which are governmental entities was postponed. .
- Singapore Organization: Dr. Tsao has recently informed the board that her organization cannot be named “ILC Singapore” at this time. The board re-affirmed its position that Dr. Tsao's organization cannot be a member of the ILC Global Alliance yet because of the naming issue. The board asked Ms. Mala Manap of the Tsao Foundation (an observer) to find out if and when the naming issue can be resolved.

#### 5. Interview with Czech Applicant

- Following an interview with Dr. Iva Helmerova and Ms. Monika Valkova, the board moved to approve the admission of ILC-Czech effective July 5, 2009.
- The board requested Dr. Helmerova and Ms. Valkova to submit to the secretariat in 6-9 months 1) a first year business plan and 2) an activity plan to expand the center's scope of interest from the current focus on geriatrics to include a wider range of issues including economic topics.

◆◇15:30~17:30◆◇

## 6. Reports by Committees

- **Website Advisory Committee (reported by Shigeo):** After reporting on web-site related activities, the committee requested that the board contribute some amount toward the cost of website maintenance. The board agreed to share this cost. The website committee, in consultation with the co-presidents, will determine the appropriate amount of the Alliance's contribution.
- **Relationship with Other International Organizations Committee (reported by Sally):** Several international efforts were discussed including the European Health/Nutrition report and the English-Speaking Union.
- **Fund-raising/Development Committee (reported by Bob):** We should encourage further inter-center collaborative projects. For example, the World Cities Project may be able to add more cities; the major sponsor of the Alliance for Health and Future (currently involving ILC offices in the US, UK, and France) is interested in increasing the number of participating centers. Creation of a data base including basic demographic and aging-related data from all centers was proposed. Bob will send members a list of data to be collected.
- **Program Committee (reported by Shigeo):** The committee recommended that the board a) make public statements when appropriate (e.g. The UN Older Persons' Day), b) encourage joint projects among ILC centers (e.g. World Cities Project), and c) inform each other about symposia in which some centers are participating (e.g. Leyden symposium).

## 7. Report by the Secretariat: Financial Issues (By Masako)

- The idea of creating a funded position within the Secretariat was mentioned by a few members. However, since in the current depressed economy many ILC centers have only limited financial resources, this issue was tabled for the next board meeting.

## 8. 2010 Board Meeting and Symposium

- ILC SA provisionally proposed to host the 2010 board meeting. However, it cannot commit itself until October 2009 when it finds out the availability of sufficient funding to pay for the meeting.
- In the event ILC SA should withdraw its offer, ILC NL will consider hosting the 2010 annual meeting.
- The 2010 symposium theme will be determined after the meeting site is finalized.

## 9. Other Matters

- A suggestion was made to create a working group to identify opportunities for inter-center collaborative projects involving two or more centers as well as funding sources for such projects.
- The board agreed to update/refine the stated mission of ILC Global Alliance (which is shown on the website)
- The secretariat will be sending a note to members about suggestions for the standing committee assignments shortly. Those centers interested in a particular committee should contact the secretariat.
- Masako informed the group that there will be a minor amendment of the By-laws regarding the duties of members, etc. The secretariat will contact members shortly.
